Subject: 649.5111/649.5112 Deviation acceptable?

Hi Jacob/Steve,

We have a few parts that came in under size during manufacturing, .250" not dimensioned came in at .234" therefore affecting the 3.973" overall height coming in at 3.957".

The problem is now resolved and parts are per dwg, 5 parts total were affected.

Is this acceptable?
